

## WILL TRY "DOPE" PEDDLERS FRIDAY

Largest Docket in Court's History Is Set for Friday's Session.

## TRY TWO FOR ASSAULT

Complaining Witnesses Are Tried in Next Case for Gambling.

SAPULPA, Aug. 24.—Friday's docket for justice court here is of record-breaking size, including preliminary hearings for all dope peddlers caught in the recent drive by federal, county and city officers. Justice A. E. Pitts says it is the largest docket he has ever had for one day.

Cases set for Friday are: Henry Harrison, second degree burglary; John Gaston, sale of narcotics; Charles Wagner, sale of narcotics; Jack Fisher, sale of narcotics; Chin, sale of narcotics; J. J. Johnson, sale of narcotics; Linas Anderson, sale of narcotics; Curley Hull, sale of narcotics; Bill Lynch, sale of narcotics; Pat Dooley, sale of narcotics; Lee Smith, larceny of five dollars; C. O. Shobe, burglary of first degree.

Henry Thomas and Thomas Todd, charged with assault with a dangerous weapon, were tried yesterday afternoon before Justice A. E. Pitts. A number of witnesses took the stand and testified, but no verdict was brought out that either man assaulted any one or threatened to assault anybody. Evidence was brought out, however, that two of the witnesses, George Williams and T. W. Allen, who own and run a pool hall at Slick, were conducting a few quiet games of "rolling the bones" on a back table. Justice Pitts dismissed the case of assault against Thomas, and a charge of carrying concealed weapons was placed against him. He pleaded guilty to this charge and was fined \$25 and costs. Thomas Todd was dismissed.

Williams and Allen, charged with conducting a gambling house, pleaded not guilty. Bonds were set and made at \$200 each.

Albert Tabor, 19-year-old negro youth, is now in the county jail, charged with murder. The arrest was made by Deputy Jake Klingman at Bristol. He is alleged to have killed a negro woman at Bristol several days ago. The name of the murdered woman was not learned. Tabor will be given a preliminary trial on Saturday. Tabor is the seventh man to be held in the county jail on a charge of murder.

A report was given on the canvass of the boys of the city now being taken by the Rotary club. Deputy Sheriff Abner Bruce is in Granite today attending to official business.

Because he sold potatoes to grocers and did not have a license, Charles P. Fox was arrested several days ago and tried in the city court this morning. ## Ex-Soldier Patients Refuse Transfers to Hospitals in Houston

OKLAHOMA CITY, Aug. 24.—Sick and disabled Oklahoma ex-service men must be sent to the base hospital at Houston, Texas, for treatment instead of being "fanned out" to local hospitals on a contract, according to an order received here by Major Hugh Scott, director of war risk insurance for the state, from Secretary of the Treasury P. F. Houston. Service men in hospitals here, when notified that their treatment would be continued at Houston refused to go, hospital authorities say, but returned to their homes, waiving the benefit of the government treatment and insurance.

The wearing of glasses does not indicate age, but, instead, intellect. Only wise men utilize the findings of science to conserve their physical well being.

The age in which we live is particularly cruel to vision through its necessary demand of speed and efficiency—but this age is also kind to the vision of man through the gift of sight science to striving men.

## GAS DECISIONS ARE POSTPONED

Corporation Commission Sets September One for Next Meet.

OKLAHOMA CITY, Aug. 24.—After hearing preliminary statements by attorneys representing numerous cities in the state, the state corporation commission today postponed until September 1 the hearing of the application of the Oklahoma Natural Gas company for the establishment of a "city gate" rate for gas furnished to cities on its lines in Oklahoma.

It was indicated in preliminary statements that efforts will be made to put a zone rate into effect. Attorneys representing Tulsa, Sapulpa, and Wagoner said they would propose a modification of the company's application as they believed their cities located in the heart of the gas fields, should pay a lesser rate than those reached by long pipe lines. On September 1, the commission will hear arguments for and against abrogation of present contracts between the Oklahoma Natural and its distributing companies and substitution of a city gate rate for the present.

ent-percentage basis. The company will present to the commission on September 2 a statement of the valuation of all its lines and properties in the state, together with reports of accountants.

Special hearings will be held in Tulsa and other cities served by the company, Art Walker, chairman of the commission, announced. There will be arranged, he said, after the city gate rate question is settled.

Attorneys representing Claremore obtained a severance of their case on the ground that its gas is furnished from an adjacent field and that it is not connected with the main distributing lines of the company.

## State Briefs

TAHLEQUAH, Aug. 24.—Many men with wagons and teams are now engaged in hauling building materials to the Cherokee orphanage training school near Park Hill. More than \$75,000 will be expended in making a number of improvements at the school, among them the construction of an assembly hall and other buildings.

STROUD, Aug. 24.—Rev. Baird E. Newton returned to this city recently from a lecture tour of England and Scotland. He thinks conditions

in all European countries are very unstable.

PONCA CITY, Aug. 24.—Evidently with the idea of putting in every available foot of wheat land this fall, regardless of waste in other matters, there are more strawstacks being burned in this section than ever before. Every night the skyline is lighted up, notwithstanding that the straw makes excellent roughage for cattle and provides a windbreak for the animals in the winter. Only a small amount of the straw is ever utilized, for many farmers let it all go to waste.

TONKAWA, Aug. 24.—The new flour mill has opened for business

with F. M. Harris and E. M. Wetmore in charge as managers. This makes the third flour mill for Kay county, as Ponca City and Blackwell have one each. Tonkawa is the center of the most productive section of the county.

BLISS, Aug. 24.—The 101 ranch will have a 100-acre apple crop. The trees are full of fruit and the windfall crop at the present time is supplying the entire county with apples. Last year the Millers picked no apples at all, but permitted all corners to pick for themselves and pay them a stated price. The entire

crop was thus disposed of without hiring any help to pick it.

PONCA CITY, Aug. 24.—Many Indian representatives from tribes in other nations are assembling with the Otoes, Poncas and Missouris south of this city for the purpose of conducting an Indian Mormon meeting, presumably of those who have adopted that faith. The meeting will be held on the David Peet farm beginning Saturday and lasting ten days. Members of 50 tribes are expected. At the same time the Indian Baptists will conduct a revival meeting at the Otoe roundhouse three miles east of Redrock.
